OBJECTIVE

Aspiring Cybersecurity Professional and B.Sc. Cyber Forensics graduate with a comprehensive focus on offensive security and digital forensics. Currently pursuing LPT (Licensed Penetration Tester) and CHFI credentials. Proficient in log analysis, SecOps, and vulnerability assessment, with specialized knowledge in the evolving cybersecurity threat landscape and game hacking development. Seeking an entry-level role to apply a multi-layered approach to threat detection and mitigation.

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

CNSP (Certified Network Security Practitioner) - The SecOps Group

CCEP (Certified Cyber Ethics Professional) - Red Team Leaders

Foundations of Log Analysis for Cyber Defense - Red Team Leaders

Fundamentals of Game Hacking Development - Red Team Leaders

The Cybersecurity Threat Landscape - LinkedIn Learning

In Progress : **CEH** , **CEH Master**, **CPENT**, **LPT**, and **CHFI** - (Blitz Academy - Expected 2026)

EDUCATION

PGP in Cyber Forensics, Blitz Academy Expected 2026

B.Sc. in Cyber Forensics, Cochin Arts and Science College 2022– 2025

Higher Secondary Education, Nirmala HSS 2020– 2022

Secondary Education, Nirmala HS 2019– 2020

SKILLS

| | |
|---------------------------|---|
| Offensive Security | Ethical Hacking, Penetration Testing, Game Hacking/Memory Manipulation. |
| Defensive Security | Log Analysis, SecOps, Threat Landscape Analysis, Network Security Monitoring. |
| Digital Forensics | Evidence Acquisition, Chain of Custody, Computer Hacking Forensic Investigation (CHFI). |
| Technical Stack | Windows, Linux (Kali), SQL, IoT Prototyping, Secure Web Development. |

PROJECTS

[Arabian World Tours and Travels Website](#)

- Developed a secure travel platform with encrypted payment gateways and an administrative dashboard.
- Integrated tour packages, destination details, image galleries, multi-currency support.
- Built a custom admin panel for managing real-time bookings, travel packages, and content updates.
- Optimized for SEO, mobile responsiveness, and data integrity using secure coding practices.

Government Arts and Science College Website, Thrithala

- Designed and developed a user-friendly website for the college, enhancing online presence and accessibility.
- Architected a dynamic multi-page site with a custom CMS for academic department and faculty management.
- Integrated secure login and data management systems for college staff to maintain site updates.
- Ensured full cross-browser compatibility and user-centric UI/UX design.

EXTRA-CURRICULAR ACTIVITIES

- NSS Volunteer: participated in community service and college initiatives.
- Member of College Tech Club: organized coding, cyber forensics, and hardware development projects.
- Built microcontroller and IoT-based hardware prototypes.
- Delivered seminars on cybercrime awareness and emerging technologies.

LEADERSHIP

- Led tech club projects in cybersecurity, coding, and hardware development.
- Organized workshops, seminars, and college tech events with high participation.
- Coordinated NSS volunteer activities, mentoring peers and managing teams.
